EXPERIENCE

Software Engineer I
Automaton AI Infosystem

📅 June 2023 - Ongoing 📍 Pune, IND

- Collaborate with the development team to design, develop, and maintain the application and implement innovative features that enhance the end-user experience.
- Conduct testing and debugging to ensure the reliability and functionality of new features.
- Work closely with the data science and AI/ML teams to seamlessly integrate AI/ML capabilities and Models into the application.
- Stay updated on industry trends and emerging technologies to implement best practices in web application development.
- Take initiative in solving complex technical challenges and optimizing the application's performance.

Software Intern
Linkcode technology ptv. Ltd

📅 Mar 2022 – Aug 2022 📍 Pune, IND

- Completed comprehensive training program on Advanced Java and its real-life applications.
- Collaborated with a team to deliver the project within budget and timeline, implementing best practices in software development.
- Gained expertise in troubleshooting technical issues and effective communication with team members and clients to ensure project success.

PROJECTS

User-wise Data Analysis and Visualization
Advit AI, MongoDB, Angular, React

📍 Automaton AI

- Focused Data Analysis: Concentrated on analyzing user-specific data, emphasizing performance and productivity metrics.
- Implemented Tracking Systems: Established data collection using flask API and analysis processes to track individual user performance.
- Actionable Insights Generation: Aimed to provide clear insights to support informed decision-making based on the data collected and visualized.

Library Management System
Java, SQL, PLSQL

📍 Linkcode Technology

- Implemented CRUD operations and made information sources available to information consumers.
- Managing a SQL PL/SQL database using JDBC is a crucial aspect of effective database administration.
- It is a user friendly web application project in which users can log in or register, view the available books, select books along with their quantity, and buy them.

EDUCATION

College of Engineering Pune
Bachelor of Technology

📅 Aug 2019 – May 2023

CGPA : 7.16

SKILLS

Python, Java | React, Angular
SQL, PL/SQL, Mongodb | MS Excel, Power BI
AWS quicksight, Athena | Data analysis
GitHub | Jira, Agile

Flying Drone (Multi-rotor drones)

WORKSHOP

AWS AI ML
Pune

📅 2023

Quicksight, Athena

RESPONSIBILITY

BTech Finance Advisor
IIM Pune Chapter

📅 Aug'22 - May'23 📍 COEP, Pune

Keep a brief record of performance, monitor progress, and keep financial records.
